

**Report of Independent Certified Public Accountants on Compliance with Requirements  
Applicable to Each Major Program and on Internal Control over  
Compliance in Accordance with OMB Circular A-133**

Honorable Mayor, City Council and City Manager  
City of North Miami, Florida

Compliance

We have audited the general purpose financial statements of the City of North Miami, Florida (the City), with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal programs for the year ended September 30, 2001. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the City's management. Our responsibility is to express an opinion on the City's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City's compliance with those requirements.

As described in item 01-4 in the accompanying schedule of findings and questioned costs, the City did not comply with requirements regarding earmarking that are applicable to its Community Development Block Grant. Compliance with such requirements is necessary, in our opinion, for the City to comply with the requirements applicable to that program.

In our opinion, except for the noncompliance described in the preceding paragraph, the City complied, in all material respects, with the requirements referred to above that are applicable to its major federal programs for the year ended September 30, 2001.

Honorable Mayor, City Council and City Manager  
City of North Miami, Florida

#### Internal Control over Compliance

The management of the City is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the City's internal control over compliance with requirements that could have a direct and material effect on major federal programs in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that non-compliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal awards program or state financial assistance project being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

However, we noted one other matter that we have reported to management in the accompanying schedule of findings as item 01-5.

This report is intended solely for the information and use of the Mayor, City Council, management, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.
